We are scheduling per your need, 20, 40 or 60 minute appointments. **We can be found in Suite 270 at Southtown Office Park in Bloomington.**

For those of you who haven't been into the office for a while, please note the patient appointment process below:

Check in at Sano

- Arrive 5-10 minutes before your scheduled appointment to check in at the front desk and pick up a digital tablet with an intake form.
- Please have a list of concerns/symptoms/questions ready at the time of check in for our practitioners to look over if you have not already emailed them into the clinic.
- Additionally, we have launched the Wellness Survey. ***Be sure to answer 10 questions regarding your healing journey, and you will see your progress on a graph.*** We recommend you complete the survey at least one time per month. It is a great way to objectively see how you are progressing even if you may still have symptoms on some level.
