

## **Halo Light Therapy**

### **How Light and Vibrational Frequency Work to Support Healing**

Taken from "Never Stop Asking Why" by Dr. Kevin Connors

#### **The Mortal Oscillatory Rate**

Rife ignored the debate, preferring to concentrate on refining his method of destroying these tiny killer viruses. He used the same principle to kill them, which made them visible: resonance. By increasing the intensity of a frequency which resonated naturally with these microbes, Rife increased their natural oscillations until they distorted and disintegrated from structural stresses. Rife called this frequency 'the mortal oscillatory rate,' or 'MOR,' and it did no harm whatsoever to the surrounding tissues.

This principle can be illustrated by using an intense musical note to shatter a wine glass: the molecules of the glass are already oscillating at some harmonic (multiple) of that musical note; they are in resonance with it, vibrate, and can no longer remain in configuration. Because everything else has a different resonant frequency, nothing but the glass's molecular configuration is destroyed. There are literally hundreds of trillions of different resonant frequencies, and every species and molecule has its very own.
